LOCATION

DESCRIPTION

Lomas Aurora incorporates a dedicated commercial component at the front of its master plan, creating an opportunity to own commercial real estate directly connected to a large residential community in Playa del Carmen. The commercial spaces are positioned near the main entrance of the development, providing convenient access and visibility within a project that combines residential lots, condo towers, future homes, green areas and extensive lifestyle amenities.

Integrated Residential Demand

The main advantage of the commercial component is its relationship with the surrounding community. Rather than being an isolated retail location, these spaces form part of a master-planned residential development designed to accommodate different types of residents. As Lomas Aurora continues to develop, its residential population can create natural demand for convenient everyday services. A Different Investment Opportunity

Commercial spaces provide a different way to invest in the Lomas Aurora master plan....
